

Senior Project Engineer

Fuse Recruitment • Western Suburbs Brisbane QLD

Base pay

\$145,000 - \$145,000

Work type

Full time

Contract type

Permanent

Full job description

Who will you be working for?

Our Client is part of a group of companies specialising in Civil, Construction and Engineering Projects. They deliver construction solutions for major infrastructure and urban development projects in Queensland and New South Wales ranging from \$1 million through to \$150 million.

What's in it for you?

- Competitive remuneration and a range of benefits including salary packaging and access to Fleet Discounts.
- Our client supports the continuous learning and professional development of their employees, in turn promoting career progression through the company.
- Be part of a strong organisational culture which encourages passion, innovation, collaboration, accountability, and empowerment.

What's the role?

Our client has a great career opportunity available for an experienced Civil Project Engineer to join their team. They currently have projects located across the Western Suburbs of Brisbane including the Ipswich region. This is a full-time role reporting to the Project Manager, where you will be responsible for providing advice in the planning, coordination, and supervision of technical aspects of the construction project. You will be expected to but not limited to -

- Ensuring effective programming and construction methodologies
- Meeting project milestones and ensuring project compliance
- Conducting quality assurance
- Financial reporting and forecasting
- Project administration
- Ensuring safe working conditions for staff and subcontractors

What Do You Need to Have/Be To Be Successful?
