Job Summary

AECOM's Bridges & Structures Group for Qld & NT is looking for an engaging and collaborative professional to provide technical leadership, team management and mentoring to our highly experienced group based in Brisbane. Leading a team of around 40 professionals across engineering, design and asset management backgrounds, you will be a contemporary leader who promotes a culture of teamwork and technical excellence. In return you will be supported by a group of senior staff skilled across a range of technical fields and project management.

Working as part of our Civil Infrastructure Leadership Team (QNT), you will contribute to the strategic direction of our Bridges & Structures Group, promoting and supporting a range of business initiatives across the sector. Your strong relationships with clients and your drive to win work will bring in new business and support the continued growth of our team to deliver for our new and existing clients. You will be a hands-on leader, responsible for the team's performance in both winning and delivering large-scale projects across the QNT region.

Also working with a broader team of specialists in a global, Fortune 500 Company this role will give you the opportunity to network across all areas of the business on a national and international stage, building your professional profile and carving a career pathway that will make a difference.

Minimum Requirements

We are looking for a motivated leader who is passionate about training and mentoring, bringing out the best in people and fostering an environment that promotes a diverse and inclusive space. You will have a commitment to leading creative and innovative developments in engineering technology and continuous improvement systems, supporting your team to deliver high quality

outcomes.

Your extensive consulting experience, specifically working on large-scale civil infrastructure projects, and strong connections to the QLD market will enable you to quickly establish meaningful relationships with your team and the wider business. You will have strong experience in working within the Transport sector, desirably including TMR project work (or equivalent transport authority). Demonstrated commercial acumen and ability to develop a strong client base will be key to your success.

Preferred Qualifications

- Bachelor of Engineering (Civil) required
- RPEQ essential

What We Offer

We will give you the flexibility you need to do your best work with hybrid work options. Whether you're working from an AECOM office, remote location or at a client site, you will be working in a dynamic environment where your integrity, entrepreneurial spirit and pioneering mindset are championed.

You will help us foster a culture of equity, diversity and inclusion – a safe and respectful workplace, where we invite everyone to bring their whole selves to work using their unique talents, backgrounds and expertise to create transformational outcomes for our clients.

We will encourage you to grow and develop your career with us through our technical and professional development programs and diverse career opportunities. We believe in leadership at all levels. No matter where you sit in the organization you can make a lasting impact on the projects you work on, the teams and committees you join and our business.

We offer competitive pay and benefits, well-being programs to support you and your family, and the development resources you need to advance your career.

When you join us, you will connect and collaborate with a global network of experts – planners, designers, engineers, scientists, consultants, program and construction managers – leading the change toward a more sustainable and equitable future. Join us and let's get started.

As an Equal Opportunity Employer, we believe in each person's potential, and we'll help you reach yours.
